

U-29 Primary Connector Adapter and Y Secondary Circuit Connector

EFLA's U-29 primary connector adapter **KDCA.U-29**

solves the problem of making simple primary installation in limited space by allowing the male and female connector to be assembled in 180° angle. The unit complies with FAA-L-823 styles 9 and 2 wiring 6mm², 19 strands, 5kV.

Main benefits

- Easy and fast installation
- Strong encapsulation materials fit to all operational environments
- Adapter for connecting primary female and male in 180° angle
